

Call for Papers

Special Issue: Some Novel Algorithms for Global Optimization and Relevant Subjects

Science Publishing Group (New York, USA) would like to publish a Special Issue entitled “**Some Novel Algorithms for Global Optimization and Relevant Subjects**” in the journal of “**Applied and Computational Mathematics**” [ISSN: 2328-5605 (Print), 2328-5613 (Online)], a peer-reviewed journal.

<http://www.sciencepublishinggroup.com/specialissue/147012>

This Special Issue aims to publish original researches of the highest scientific quality in the field of Some Novel Algorithms for Global Optimization and Relevant Subjects. It plans to offer a strong and easy access platform for original high quality innovations and scientific papers in order to enhance the international communication between engineers and scientists of the field of interest.

Both experimental and theoretical contributions of original and high quality are invited to submit to this special issue. Original innovative studies are highly encouraged.

Scientific Topics include but are not limited to the following:

1. Global optimization (main subject)
2. Finding out solution of equations (optional)
3. Approximation (optional)

Important Dates:

Submission Due Date: **June 1, 2017**

Publication Time: July, 2017

Author Guidelines and Paper Submission System:

Details information about author guidelines and online paper submission system are available at

<http://www.sciencepublishinggroup.com/journal/papersubmission.aspx?journalid=147>

Lead Guest Editor:

Loc Nguyen

Sunflower Soft Company, Ho Chi Minh city, Vietnam
